GERALD DIRAS

Computer Engineering Student

Email: gdiras09@gmail.com

GitHub: https://github.com/gdiras09-wq

PROFILE

Third-year Computer Engineering student at Tanauan City College, with expected graduation in 2027. Independently built a QR ordering system for a thesis project and a smart-bin monitoring dashboard for a classmate. Interests include web development, embedded systems, Arduino, and IoT.

EDUCATION

Tanauan City College

Computer Engineering | Third year | Expected graduation: 2027

SELECTED PROJECTS

SmartQR Ordering | Thesis project | Sole developer

- Independently built customer, cashier, and kitchen interfaces.
- Features table QR codes, menu browsing, cart and checkout, payment workflows, and live order tracking.
- Technologies: JavaScript, Node.js, Express, Socket.IO, SQLite.

Autonomous Trash Can Companion | Built for a classmate | Sole developer

- Independently built a dashboard for five simulated smart trash cans.
- Includes device selection, fill levels, battery readings, trend charts, event history, and interactive simulation controls.
- Uses simulated telemetry; no live hardware connection.
- Technologies: HTML, CSS, JavaScript, Canvas.
